

Smart App Gallery Disclaimers

Effective: December 1st 2016

The following disclaimers and notices (“**Disclaimers**”) apply to the website located at <https://apps.smarthealthit.org>, its content, and to any other webpages owned and operated by The Children’s Hospital Corporation, doing business as Boston Children’s Hospital, an affiliate of Harvard Medical School (“**BCH**”) that link back to these Disclaimers (collectively, the “**Services**”). The Services include the SMART App Gallery (the “**Gallery**”) which collects together in one place a directory of applications available for download or use on desktop and mobile devices (the “**Apps**”) that can be used in connection with the care or general health or well-being of an individual. For each App in the Gallery, a profile of relevant information about that App is provided (the “**Profile**”).

These Disclaimers are provided for ease of reference and ARE NOT the complete terms of services for the Services. For a complete understanding of a user’s rights and obligations when using the Services, users should review the Terms of Service located at <https://apps.smarthealthit.org/documents/terms.pdf>. For an understanding of the Services’ privacy and information practices, users should review the Privacy Policy located at <https://apps.smarthealthit.org/documents/privacy.pdf>.

Information Purposes Only – No Medical Advice

The Services are offered for information purposes only and are not meant as a substitute for independent medical judgment or the advice of a qualified physician or healthcare professional. The Services are not intended to provide medical advice or clinical services to patients, to verify or approve medical information or credentials provided by the Apps, or to make any medical referrals. The Services do not provide professional or medical advice or recommend any particular medical device or service, including recommendations or endorsements of any of the Apps, through the Services. Users who choose to use information or recommendations made available by the Services do so at their own risk and should not rely on that information as professional medical advice or use it to replace any relationship with their physicians or other qualified healthcare professionals.

No Endorsement of the Apps

The credentials of anyone associated with the Apps are not verified by BCH before inclusion in the Gallery and the inclusion of an App in the Gallery is not an endorsement by BCH of any such App or the related healthcare information, services or professionals.

Not Responsible for Third Party Content

Much of the content on the Services, including each of the App Profiles in the Gallery, is produced by users, publishers, and other third parties and is not controlled by BCH. Such content, and the operation of each of the Apps, are the sole responsibility of the third party person or organization that created it and BCH assumes no responsibility for any third-party content, information or App. Although BCH reserves the right to review all content and

information related to an App that appears on the website and to remove any content, information or App Profile at BCH's discretion, we do not necessarily review all or any of it. Users who access and use third party content, including Apps and content made available through the Services, do so solely at their own risk and BCH makes no warranties, express, statutory, or implied, with respect to such third party content or Apps.
